**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

**ADVISORY ACTION (continuation of page 1)**

The request for reconsideration has been considered but the amendment will not be entered for the following reasons:

New issues corresponding to new claim limitations (the field-effect transistor being a drive transistor at a word line or at a bit line of a memory cell array, where the first depression is the only depression of the field effect transistor in which the control region is arranged, and where the first depression is a straight trench) in independent claim has been added that would require further consideration and/or search.
